FALL

MAY WE BOOK YOUR ORDER BEFORE JULY 15th

So that we may import your Bulbs with ours—for delivery next Fall?

As an inducement we quote in this catalogue exceptionally inviting prices. After July 15th we will not be bound by these rates.

In Addition, on all Orders for Bulbs Selected from this Catalogue Received by us up to July 15th, 1933, for Fall Delivery, We will pay the Transportation Charges to all Points East of the Mississippi River.

Bulbs are practically all grown in Holland and as we are large importers we get the pick and import only "firsts", although great quantities known as "seconds" are on the market, and are often sold by local dealers. Having been engaged in the bulb importing business for three-quarters of a century, we know intimately all the best growers of the different varieties in Holland; some excel in growing one kind, and some in another, so that we are in a position to get the best qualities of All Varieties.

To obtain the best we advise you to order bulbs as soon as you receive this catalogue. Of course such orders being specially imported for you with our own orders, will not be subject to cancellation. Bulbs and roots mature and ripen at different periods during the late summer and autumn, and shipment will be made as follows in the absence of contrary instructions.

Our August shipment includes Liliun Harrisii, Freesias, Roman and French Hyacinths, Paper White Narcissus and Callas. Our September and October Main Shipment includes the general line of bulbs, such as Hyacinths, Tulips, Narcissus, Crocus, Iris, Peonies, Snowdrops, Scillas, etc. Our November shipment includes Lily of the Valley, Hardy Lilies, etc.

"Henderson's Bulb Culture" 68 pages, size 7½ x 9½ inches. 32 pages of illustrations. Price, postpaid, 75 cents and we also send it free with orders for bulbs amounting to three dollars or over if requested.

BUSINESS RULES, ETC.

TRANSPORTATION—All Vegetable Seeds, Flower Seeds, Grass Seeds and Bulbs offered in this catalogue will be delivered—at the prices listed, transportation paid in the U. S. and Possessions. In making this Free Delivery offer we reserve the right to ship goods either by Parcel Post, Express or Freight.

ACCOUNTS—Parties having no account with us—who order goods without remittance—must furnish satisfactory reference. New York City reference preferred on account of the shorter delay pending investigation.

REMITTANCES may be made by Express Money Order, P. O. Money Order or Bank Draft; if bills or silver send in a Registered Letter, otherwise it is at sender's risk. We must decline sending goods C. O. D. unless 25% of their value accompanies the order.

NOTE—If cash or stamps are sent by mail REGISTER THE LETTER otherwise it travels at owner's risk. Letters are frequently lost in transit. Send 2c stamps only.

WE DO NOT SUPPLY DEALERS, therefore our Bulbs, Seeds, etc., can only be procured by sending orders direct to us.

ALL GARDENERS OF EXPERIENCE know that success depends largely on weather conditions and proper cultivation, so in accordance with the universal custom of the trade **Peter Henderson & Co.** gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs, Plants or Roots they send out, and they will not be in any way responsible for the crop.

THE NEW BULB PLANTER

IT MAKES PLANTING EASY!

This handy tool makes the type of hole best suited to bulbs. They do best when planted with the root end resting on a firm, flat base, free from air pockets. It is equally useful for setting out small plants.

Merely push the tool into the soil with a slight twist. Continue this motion as you remove the tool and the soil comes with it, leaving a clean flat-bottomed hole. This soil is pushed out when the operation is repeated.

Price, 50c, transportation paid.

Henderson's Giant Darwin Tulips— The Aristocrats of Tulipdom

These May flowering Darwin Tulips produce the most gorgeous garden display of the entire year, and it is evident that their great and sustained popularity is not due to a passing fancy on the part of the garden-loving public; but to an ever-increasing appreciation of their surpassing beauty, and their great value as gardening material.

Their graceful form, the endless variety of colors to be had, and their dependability for bloom, combine to make them the most desirable flowers any one could wish for.

Darwin Tulips range in color through an astonishing array of pink, rose, scarlet, crimson and maroon shades to almost black, and then again through lilac, mauve, violet and purple to almost black. There are no yellows in Darwins, when yellow is wanted in a combination, Cottage Tulip-Inglescomb Yellow is the variety used.

Darwin Tulips have a peculiarity, or distinguishing characteristic, which many tulip lovers have noticed, but which is usually lacking in published descriptions. We refer to the "overcast" or "bloom" on most varieties which is just the same as the bloom on a grape. It is this "bloom" that imparts to them their soft pastel appearance, and it really transforms positive colors into soft aesthetic shades of the same color.

The combinations of color that may be made are endless. Combinations of lavenders, lilacs, mauves, violets and purples are especially good; and the rich scarlets, pinks and crimsons, most of them having rose shadings, make the most brilliant displays when in bloom, that can be imagined.

As observed before, all Darwins are beautifully shaded; in many sorts the edges of the petals are lighter than their centers, and still others have very striking blue and violet bases. The stems of Darwins are very long, rendering them ideal for cutting purposes. Some varieties reach a height of three feet under good cultivation, but two feet in height is a good average.

To aid in making selections of varieties for continuity of bloom, etc., we have indicated their relative time of flowering by the letters E, F, G, H and I. The E's being the earliest to bloom. The height is also given, but may vary. The bulbs should be spaced about 5 inches apart and base of the bulbs should be 5 to 6 inches deep on heavy soils and 6 to 7 inches deep on light soils.

As cut flowers they are unsurpassable. They can be successfully flowered in pots or pans in the house in winter if grown cool and not forced into bloom before March. The varieties marked * are especially good for that purpose.

COTTAGE TULIPS

Cottage Tulips are so-called because found growing in the old cottage gardens of England, Scotland, Ireland and France where they had been established for 50 years or more. All are very beautiful, presenting a great variety in form and coloring, and having none of the stiffness of other tulips. For cutting they are greatly prized on account of their long stems and graceful habit. They are specially adapted for hardy flower borders, where they should be planted in large clumps and masses. To aid in making selections for continuity of bloom, etc., the relative time of flowering is indicated by the letters E, F, G, H and I. Those marked E being the earliest. Those marked I are the latest to bloom. The normal height is also given in inches. In planting the bulbs should be placed 5 inches apart and the bottom of the bulb should be 6 to 7 inches below the surface in light soils and 5 to 6 inches deep in heavy soils. If planted too shallow some may come blind. The varieties marked * are especially good for winter flowering and forcing.

BIZARRE TULIPS

One of the oldest races of tulips grown extensively in Europe during the seventeenth century. It is this class that is credited as being responsible for the famous tulip craze in 1635. Bizarre tulips are all queerly striped and variegated; they belong to the May flowering group, and flower on tall stems.

PARROT OR DRAGON TULIPS

Fantasy. (*Novelty.*) This recent product of the tulip breeder's art originated as a sport from Clara Butt, the well known Darwin tulip. Clara Butt is esteemed for its beautiful salmon pink color; and this sport Fantasy has inherited the same glorious color except that the inside of the flower is more intense in color; the height is 20 inches. Each petal besides being elaborately lacinated is marked very distinctly in the center with a streak of apple-green. This variety is also suitable for growing in pots or pans of soil in the window, attracting great attention wherever exhibited. Price, 20c each; \$2.00 per doz.; \$15.00 per 100. (See illustration.)

Prices of Named Sorts mentioned below. 70c per doz.; \$5.00 per 100; \$45.00 per 1000

TRIUMPH TULIPS

Triumph tulips originated from crosses between Darwin and Early tulips continued over a number of years, and are therefore the results of much painstaking effort by the breeders. They are sturdy and strong growers and have large and heavy flowers on strong stems. They bloom from one to two weeks ahead of the Darwin tulips.

REMBRANDT TULIPS

These late or May-flowering garden tulips form a new class of stately beauty. They are in reality Darwin tulips which have "broken" into permanent variations—the flowers of various rich colors being striped, blotched and marked with different shades and colors. The flowers, large, of perfect form and lasting substance, are borne on sturdy stems about two feet in height. These Rembrandts are very effective planted in groups in the herbaceous or shrubbery border and will remain 3 or 4 years without replanting.

BYBLOEMEN TULIPS

The "Rose" Bybloemen tulips are those marked with crimson, rose, pink and scarlet on a white ground, and the "Violet" Bybloemen are those marked with blue, purple and violet also on a white ground.

They flower at the same time as the Darwin and Breeder varieties, and the culture is the same.

HENDERSON'S SUPERIOR DOUBLE EARLY TULIPS

Named Varieties including some Beautiful Novelties

The letter A, B, C, etc., following the varieties indicate their earliness of bloom, the A's flower together and are the earliest; B's follow before the A's are out of bloom, etc. The height is indicated in inches to aid in arranging flower beds. When bedded it is generally advisable to use only one variety to a bed for best effect. The bulbs are planted 5 to 6 inches apart—and the depth should be according to the soil, in heavy soils 3 to 4 inches to the base of the bulbs and in light soils an inch or so deeper. Instructions for forcing in pots for winter blooming will be found in our leaflet "How to Grow Bulbs" sent free with every order.

NAMED HYACINTHS—Double Dutch

All Select First Size Bulbs, not "Seconds" that may be sold at a lower price.

Double Hyacinths are not as popular as the single-belled varieties; for as a class the "doubles," although their individual bells are large and beautiful, do not make as well-filled trusses. For this reason we confine our list of varieties to a few of the very best.

PRICE, 15c EACH, \$1.50 PER DOZEN, \$12.00 PER 100.

DOUBLE RED ROSE AND PINK

- Groot Voorst,** large very double bells of blush pink with darker center; good spike.
- Noble par Merite,** deep pink, very large fine double bells, tall spike; good forcer.

DOUBLE WHITE AND TINTED

- Isabella,** white suffused with rosy blush, enormous double bells and large well-filled spike.
- Bouquet Royal,** an old favorite early variety and still hard to beat; double pure white bells on tall spike.

DOUBLE LAVENDER, BLUE AND PURPLE

- Blocksberg,** light blue shaded darker blue; double bells on tall spike.
- Garrick,** lavender tinted blue; fine compact spike of double bells.

DOUBLE YELLOW AND ORANGE

- Goethe,** a popular old variety salmon yellow with pinkish center; double bells and good spike.
- Sunflower.** Splendid deep-buff-yellow.

Hyacinth Glasses

Hyacinths grown in glasses of water are charming ornaments for parlor windows, and the ease and success in flowering bulbs in this way add greatly to their popularity. Furnished in the following colors: green, blue, amber or crystal, 30c each; \$3.00 per doz. (See illustration.) (Not available. Shipment by express at customer's expense.)

DUTCH ROMAN HYACINTHS

The smaller or three-year-old bulbs of some varieties of Dutch Hyacinths produce, considering their size, beautiful spikes of bloom, not as large nor furnished with as many bells as older full-sized bulbs but still so satisfactory for their low price that they are extensively grown for winter flowers, forced either in "flats" pans or pots. (See *Bulb Circular for Cultivation, Sent Free.*)

Mixed Colors

Price, 6c each; 60c per doz.; \$4.50 per 100

EARLY ROMAN HYACINTHS

Roman Hyacinths are extensively used for "forcing" for cut flowers. The white Roman Hyacinth is the earliest, best and most floriferous variety, though the pink, and light blue are very beautiful and supply a variation of color. (See *Bulb Circular for Cultivation.*)

Early White Roman, extra size bulbs, 20c each; \$2.00 per doz.; \$15.00 per 100.

Early Pink Roman, first size bulbs, 12c each; \$1.25 per doz.; \$9.00 per 100.

Early Light Blue Roman, first size bulbs, 12c each; \$1.25 per doz. \$9.00 per 100.

American Grown Narcissus Daffodils and Jonquils

Among spring flowering bulbous plants the Narcissus family is one of the most important and of world-wide popularity. With the exception of the Polyanthus varieties (offered on page 13) all are as hardy as rocks, grow, increase and flower year after year. They may be grown in garden beds, among hardy plants in herbaceous borders, or "naturalized," that is, grown as if wild in outlying portions of the lawn or grounds, on terraced slopes, and along semi-shaded paths. As cut flowers Narcissus are especially useful, being of lasting quality and vasing beautifully.

Send for our pamphlet "How to Grow Bulbs" sent free.

NOTE—The "perianth" is the surrounding row of petals or wings. The trumpet "crown" or "cup" is the center portion of the flower.

Campernelle. Much prized for its small golden flowers which are produced in great profusion. Perfectly hardy for the outdoor garden, and also a good variety for winter flowering in pots of soil. The yellow flowers are borne four to six on stems about eighteen inches high.	.08	.80	6.00
Double Campernelle. Very fine double form, beautiful golden yellow, 2-4 florets per stem.....	.10	1.00	7.50

Polyanthus Narcissus

The *Polyanthus* varieties of Narcissus are deliciously sweet-scented, of the easiest culture, very free flowering and continue long in bloom; bearing from six to one dozen flowers each. South of the freezing belt they are splendid for gardens and "naturalize" well. For growing in pots or pans of soil or in shallow dishes in pebbles and water, they are especially adapted and can be had in flower in the house from Christmas throughout the winter by bringing the pots of rooted bulbs in from the frame or cellar every week or two.

PAPER WHITE

HARDY LILIES

Lilies commence flowering in June and with the various species maintain a continuous and unbroken succession in the shrubby border. Most Lily Bulbs, being of late maturity, are not ready before October, November and December (the best time to plant them). Where the ground is liable to freeze up before the late lilies arrive it should be mulched with 6 or 8 inches of leaves or manure to keep it from freezing, so the bulbs may be planted on arrival.

Auratum. (The Golden Rayed Lily of Japan.) The flowers are pure white, thickly studded with crimson spots, while through the centre of each petal runs a clear golden band. Fully expanded the flowers measure nearly a foot across and possess a most delicious fragrance. Season of bloom from July to October; 3 to 5 feet. (See illustration)

9 to 11 Inch Bulbs.....30c each; \$3.00 doz.; \$20.00 per 100

11 to 13 Inch Bulbs.....45c each; \$4.50 doz.; \$35.00 per 100

Candidum, Henderson's Superior Northern Grown. This is the ever popular fragrant, snow-white, hardy garden Lily, which is also known as "Annunciation Lily," and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. Price, extra large bulbs.....

35c each; \$3.50 doz.; \$25.00 per 100

Canadense. Our native Canadian Lily. Bright yellow marked with copious spots of red; blooms in June and July. 2 to 3 feet high.....20c each; \$2.00 doz.; \$15.00 per 100

Canadense Flavum. A pure yellow selection of the above. 20c each; \$2.00 doz.; \$15.00 per 100

Canadense Rubrum. Crimson with dark spots.....20c each; \$2.00 doz.; \$15.00 per 100

Elegans Mixed Varieties. A fine dwarf Japanese variety of easy culture. Colors shading from yellow to deep blood red. Flowers June-July.....20c each; \$2.00 doz.; \$15.00 per 100

Hansonii. (The True Japanese Yellow Martagon.) This is one of the best of the Martagon group, unsurpassed in vigor of growth and beauty by any other lily. The flowers are large, of a bright yellow, tinged orange and spotted maroon, with thick wax-like petals. Very robust and free. Flowers in June.....40c each; \$4.00 doz.

Henryi. (The Yellow Speciosum.) A new rare and very beautiful Lily from China. It is very hardy, and without doubt one of the best Lilies for garden culture. The flower stalks, 3 to 5 feet high, carry 5 to 8 large flowers each, rich apricot-yellow lightly spotted with brown. Flowers July-August 40c each; \$4.00 doz.

Regale ("A Royal Beauty"). The flowers are white, slightly suffused with pink, with a beautiful shade of canary yellow at the center, blending out part way up the trumpet. The fragrance is fascinating. A splendid hardy Lily for the garden, flowering in July. Well-grown bulbs often produce five to eight blooms.....35c each; \$3.50 doz.

Speciosum or Lancifolium. The varieties of *L. Speciosum* or *Lancifolium* are perhaps the most popular Lilies grown. They are easy of cultivation, and produce large flowers of delicate beauty on strong stems; height, from 2 to 4 feet; blooming in August. The varieties are:

Speciosum Album. White. Large bulbs. 45c each; \$4.50 doz.

Speciosum Rubrum (Roseum). White, shaded and spotted with rose and red. (See illustration.) Large bulbs.....40c each; \$4.00 doz.

Speciosum Melpomene. Rich blood-crimson, heavily spotted. Large bulbs.....40c each; \$4.00 doz.

Superbum. (Turk's Cap Lily.) One of our native species. Grown in good, rich soil, it will produce upwards of 20 beautiful orange, tipped red, spotted flowers in a pyramidal cluster. 3 to 5 feet high. Blooms in July.....

25c each; \$2.50 doz.; \$18.00 per 100

Tigrinum Splendens. (Improved Tiger Lily.) The grandest of the Tigers, black polished stem. Very large pyramids of flowers, orange red, spotted with black. 3 to 5 feet high. Blooms in August.....20c each; \$2.00 doz.

Tigrinum Flora Plena. (Double Tiger Lily.) Double bright orange-red flowers spotted with black. Blooms in August. 25c each; \$2.50 doz.; \$18.00 per 100

Umbellatum. Of strong, sturdy habit, growing from 2 to 3 feet high, having large showy flowers in clusters at the summit, flowering in June. The colors range through all shades of red from rose to blackish-crimson, yellow, buff, orange, etc., many being spotted. **Mixed Colors**.....

20c each; \$2.00 doz.; \$15.00 per 100

Lilies for Growing Indoors

Bermuda Easter Lilies

Lilium Longiflorum Harrisii

The short time required to bring this peerless Lily into flower renders it invaluable. The flowers are delightfully fragrant, pure waxy-white, and if cut when partially open can be kept for two weeks. Bulbs potted in September can be had in flower in December, if desired.

A succession of bloom can be kept up throughout the winter by bringing in a few pots of bulbs from cold frames at intervals. Blooming plants in pots are suitable for Easter offerings and presents.

Bulbs Ready for Shipment—August to December. (See engraving.)

Extra Size Bulbs. (7 to 9 inches in circumference.) This is the most popular size to grow as pot plants for decoration and equally as valuable for cutting. Bulbs should produce from 8 to 12 flowers. 30c each; \$3.30 doz.; \$22.50 per 100.

Monstrous Size Bulbs. (9 to 11 inches in circumference.) These are usually grown for specimens in pots for exhibition and decorations. Each bulb should produce from 12 to 18 flowers. 50c each; \$5.00 per doz.; \$37.50 per 100.

The Formosa Easter Lily

Lilium Longiflorum Formosum

This is an improved type of the well known *L. longiflorum* also known as the "Easter or St. Joseph's Lily." The plants are of healthy strong growth—about 3 feet high and produce beautiful snow white trumpet shaped flowers, 6 to 8 inches long. This lily is largely grown by florists who "force" them as pot plants and for cut flowers. It is not quite as early as *Lilium Harrisii*. *For Shipment, September to December.*

Extra Size Bulbs. 9 to 10 inches. 40c each; \$4.00 doz.; \$30.00 per 100.

Japan Easter Lily

Lilium Longiflorum Giganteum

This Japanese type is highly thought of for late winter and Easter forcing—though the bulbs of this variety are often carried over in cold storage to be brought into bloom at any desired time the succeeding year. The plant is of sturdy stocky growth—with black marked stems. The flowers of purest white are the largest of the longiflorums. *For Shipment October to December.*

Extra Size Bulbs. 9 to 10 inches. 40c each; \$4.00 doz.; \$30.00 per 100.
Six Bulbs of a Variety Sold at the Dozen Rate, 25 at the Hundred Rate.

Henderson's Selected Calla Lilies

A well-known plant of easy culture for winter bloom. It makes a handsome house or window plant. To aid profuse blooming keep dormant from the middle of June until the last of September; pot on receipt in good, rich soil, using 6- to 8-inch pot, give light and heat in abundance. Both foliage and flowers are attractive in this desirable winter bloomer.

Aethiopia or Lily of the Nile. This old favorite White Calla Lily is too well known to require any description. We offer dry roots, as they are superior for forcing and winter-flowering purposes; they come into bloom quickly and require less room, making less foliage. Extra large bulbs, 35c each; \$3.50 per doz.; \$25.00 per 100.

Elliottiana, Yellow. The yellow Calla; large rich, deep golden flowers often 4 to 5 inches across at the mouth; habit of growth and foliage like the old favorite white Calla excepting the leaves of Elliottiana are spotted with white. (See illustration.) Dry bulbs, 35c each; \$3.50 per doz.; \$25.00 per 100. (Ready in November.)

Lily of the Valley

(Ready for Delivery in November)

Henderson's Extra Single Crown or "Pips." The finest grade of Crowns in the world for winter flowering. They will bear 12 to 16 large bells on strong stalks, with foliage, even when forced for extra early; the pips average large, plump and regular, with extra long roots. 25 Crowns (1 bundle), \$2.00; 100 Crowns, \$7.00; \$60.00 per 1000.

Fortin's Giant. This is the largest variety yet produced; it is only adapted for open ground planting, and may not show much superiority the first spring after planting, but by the second season, or when it gets well established, it produces wonderfully luxuriant foliage and immense spikes of purest white bells. Crowns, \$1.00 per doz.; \$7.50 per 100.

Bermuda Easter Lily

German Iris or Fleur-de-Lis

Iris Germanica and Allied Species

German Iris are well termed "Garden Orchids" and they fairly outrival the orchids in wide range of coloring—including yellows from light canary to deep golden; blues from soft lavender to intense purples, reds from pinkish mauve to claret and maroon, beautiful bronzes and pure whites. Some are marked and margined with other colors in exquisite harmony and all have showy yellow or orange crests or beards, many of the varieties being delightfully fragrant.

The roots are ready for shipment from September 15th to November 15th.

Japan Iris

Japan Iris Iris Kaempferi

The magnificence of these new Irises surpasses description. The flowers are of enormous size, averaging 6 to 8 inches across, charming hues and colors, varying like watered silk in the sunlight, the prevailing colors being white, crimson, rose, lilac, lavender, violet and blue; each flower usually representing several shades, while a golden-yellow blotch, surrounded by a halo of blue or violet, at the base of the petals intensifies the wealth of coloring. They bloom in great profusion in June and throughout July, coming into bloom when other Irises are faded and gone. Ready September 15 to November 15.

Amaryllis Giant Hybrid "International Prize" Strain

The coloring and marking are exquisite; the bulbs are large, and are of sufficient strength and age to produce flowers during winter or spring. They are the most gorgeous bulbous plants known. They throw up spikes from 2 to 3 feet high, bearing enormous wide petalled flowers averaging 8 to 10 inches across and of great substance, some being of rich and glowing colors, others delicately shaded and superbly veined. (See illustration.)

Mixed Varieties. 75c each; \$7.50 per doz.

Anemone Giant St. Brigid

An improved Irish variety bearing magnificent flowers, double, semi-double and single, 3 to 5 inches across, of the richest as well as the daintiest colors. There is maroon, scarlet, crimson, pink, blue, purple, cream, white, etc., in endless variety. The flowers are borne freely on long stems and are charming. Grow in cold frames in northern states. Mixed colors, 75c per doz.; \$6.00 per 100.

Freeseas Henderson's Superior

Freeseas are popular for pot culture, flowering in the winter and spring in the conservatory, or window garden.

Culture

Plant in deep pots, for the new roots which form below the others go deep, plant ten bulbs in a five-inch pot.

After being potted do not store, but place in an indirect light in the dwelling or under the bench in the conservatory until growth shows above the soil.

Never force, but grow in a fairly cool temperature. Flowers appear in 5 or 6 months after planting.

Elder's Giant White. The finest white variety, beautiful pure white flowers double the size of Purity. Price: \$1.00 per doz.; \$7.50 per 100.

Oxalis

Charming little half-trailing or bushy plants particularly adapted for pot culture and hanging baskets, the foliage alone is very attractive and when in flower they are exceedingly pretty.

Bermuda Buttercup. This is one of the finest winter-flowering plants for pot culture. It is a strong, luxuriant grower, and the great profusion of bloom produced in uninterrupted abundance for weeks is astonishing. The flowers are of the purest bright buttercup yellow. 40c per doz.; \$3.00 per 100.

Grand Duchess. A California variety of great beauty; of dwarf sturdy growth throwing large exquisite flowers well above the foliage. Extremely free-flowering from November till June. Price for either, **White, Pink or Lavender**, 40c per doz.; \$3.00 per 100.

Ranunculus

These are unrivaled for attractive colors, ranging through shades of crimson, white, yellow, purple, black. Many beautifully marked with other shades. They flower profusely in pots in the house during the winter or if grown in frames in the spring.

Double Giant French Mixed. 60c per doz.; \$4.50 per 100.

Palafior. A new hybrid variety of this popular flower having blooms twice the size of the ordinary sorts. The colors range from crimson to rose and beautiful shades of yellow to pure white, height 15 to 18 inches. (See illustration.) Price, each, 10c.; per doz., \$1.00; per 100, \$7.50.

Scilla (Blue Bells)

Most beautiful hardy spring bulbs, producing in profusion masses of exquisite rich blue flowers almost before the snow has disappeared. If grown in masses, their flowers fairly carpet the ground. Grown in pots, they may be had in bloom from Christmas until April.

Siberica (Blue). 50c per doz.; \$3.50 per 100; \$30.00 per 1000.

Siberica Alba. The white flowering variety, very beautiful. (See illustration.) 60c per doz.; \$4.50 per 100; \$40.00 per 1000.

Campanulata. (*Wood Hyacinth or Bluebell*.) Flowers borne on tall spikes. 1 to 2 feet high. Each flower measures nearly one inch across and droops gracefully; perfectly hardy; also fine for pot culture. We offer the following colors:

Major Blue. 50c per doz.; \$3.50 per 100. **Rose**. 60c per doz.; \$4.50 per 100. **White**. 50c per doz.; \$3.50 per 100.

Snowdrops

In the early spring months there is nothing more beautiful than a sheet of the snowy, graceful blossoms of the Snowdrop. Beds and effects of surpassing beauty may be arranged with Snowdrops in the centre edged with bright blue Scilla Siberica, or Chionodoxias, or by intermingling them. Used as a permanent edging, and in masses on the edges of lawns, nestling in the grass, they look charming. Snowdrops are easily flowered in pots during the winter.

Single Snowdrops. 50c per doz.; \$3.50 per 100; \$30.00 per 1000.

Double Snowdrops. 70c per doz.; \$5.50 per 100; \$50.00 per 1000.

Elves' Giant Snowdrop. One of the finest of the genus, at least three times the size of the ordinary single Snowdrop; flowers slightly marked with green spots; fine for cutting. 50c per doz.; \$3.50 per 100; \$30.00 per 1000.

Winter Aconite (*Eranthis Hyemalis*)

Early in spring the golden blossoms of the Winter Aconite appear resting on an emerald-green cushion of leaves. The foliage remains long after the flowers, making the plant especially valuable in moist situations such as under trees where the Winter Aconite thrives. 3 to 8 inches high. 35c per doz.; \$2.75 per 100; \$25.00 per 1000.

Henderson's "Forget-Me-Not" Collection of Flower Seeds

4715 Seventeen Packets of Hardy Perennials \$1.25 Postpaid

There is a lasting quality about perennials because they renew their beauty every spring, and if a good selection is made, they will keep a garden a-bloom all the season. A number of annuals should also be grown in bare places until the perennials attain full growth and begin to flower.

This collection consists of 17 of the most popular and easily grown sorts which will bloom the year following the sowing of seed. A few, including Coreopsis, Gaillardia, etc., often flower the same year, if the seed is sown early in spring.

Perennial flower seed can be sown from early spring to about August 1st in the latitude of New York.

SELECTED PANSY SEED

For Summer and Autumn Sowings

Growing Pansies from Summer and Autumn-Sown Seed. Sow the seed in July, August or the early part of September in the open ground on a finely prepared seedbed sheltered from hot sun, or protect with a light covering of hay or straw or even burlap, to keep the ground moist until the seedlings are up. Thin the seedlings to 3 or 4 inches apart—in about 6 weeks the young plants can be removed to their permanent flowering quarters, where they must be again covered with hay to a depth of about 3 inches after freezing weather sets in. Another way to winter over autumn-grown seedlings is to transplant them 3 or 4 inches apart according to their size into coldframes, and transplant to flowering quarters as early in the spring as possible.

The Pansy is hardy with slight protection, and thrives best when grown cool.

MAMMOTH BUTTERFLY

This "Butterfly" race originated from selections made by the late Peter Henderson—who was particularly fond of Pansies—from the best American, English, Scotch, French and German varieties. This process of selection has been followed by us ever since, and from the legion of "most beautiful" Pansies among Henderson's Butterflies we have chosen this offering.

3120 Henderson's Mammoth Butterfly Pansies in Mixed Colors.

Per 1000 seeds, \$1.00; Pkt., 25c.

GIANT MOTTLED

Well-grown they measure 3 to 3½ inches across—and of most gorgeous effects, blotches, spotted, marbled, veined, striped and blended colors passing through reds, rose, pink, white, purple, in beautiful and indescribable variation.

3150 Mixed Colors. Per 1000 seeds, \$1.00; Pkt., 25c.

BUGNOT'S LARGE STAINED FRENCH

These Pansies are distinguished by their varied colors and strong markings. There is a large "blotch" on each of the five petals, with a band of some strikingly contrasting color, over all of which is thrown a cobweb like netting of yet another hue.

3110 Mixed Colors. Per 1000 seeds, 75c; Pkt., 15c

POPULAR STRAINS

3100 Bedding. Finest Mixed. Per 1000 seeds, 25c; Pkt., 5c

3140 English Choicest Show. Mixed. Per 1000 seeds, \$1.00; Pkt., 25c.

GIANT RUFFLED

The broad petals seem to be "gathered" to the stem, causing them to be fluted from center to circumference, not unlike "frilled" velvet. The unusual substance of the flowers, enables them to present bold, open and handsome faces, during windy or dry summer weather, when other Pansy flowers droop or wilt. The flowers are borne on strong stems well above the foliage and contain rich combinations of coloring not found in other Pansies.

3170 Mixed Colors. Per 1000 seeds, \$1.00; Pkt., 25c.

SWISS GIANT or Roggli's Hybrids

These varieties were raised by a Pansy Specialist in Switzerland and have created a decided sensation in floricultural circles. The plants are very robust, and the enormous flowers of heavy texture are carried on strong stems well above the leaves. We have pleasure in offering to our customers, the very distinct varieties described below.

See colored plate in our spring catalogue "Everything for the Garden" page 104

3172 Mixed Colors. Per 1000 seeds, \$1.25. Pkt., 35c.

3173 Cardinal Shades. This is a selection of many red and crimson sorts. Pkt., 35c.

3174 Lake of Thun. This is an exquisite color, a rich ultra-marine blue, having a darker blue blotch on the petals. Pkt., 35c.

3175 Rheingold. The most intense yellow Pansy evolved so far.

The three lower petals carry a brown blotch. Pkt., 35c.

SUPERIOR GIANT TRIMARDEAU

Years of scientific hybridization and selection in raising Pansies have gradually evolved a superior race of robust growth.

Rockeries and Rock Gardens

4761 Collection of 15 varieties of perennial flower seeds, \$2.00 Postpaid.

Preparations for a Rock Garden must be made ahead, if perennials are used, as they do not bloom the first year. Seeds should be planted outdoors on the rock garden in the places they are to grow, early in spring and up to July 15th. We recommend planting Darwin Tulips and other bulbs in Rock Gardens in the fall to provide a show in spring.

Alyssum Saxatile Compacta. "Basket of Gold." Hardy plant, large flowers, pure yellow, 9 inches high.

Agrostemma Coronaria. "Rose Champion." Mixed colors.

Arabis Alpina. A very useful, hardy plant for rockeries; pure white flowers. Height, 6 inches.

Aubretia Hybrids Mixed. A lovely mauve spring blooming plant; produces masses of bloom. Hardy and easily grown.

Campanula Persicifolia Blue. "Peach-leaved bell-flowers," large blossoms of blue or white, 2 to 3 feet high.

Candytuft Gibraltica. Blooms early, hardy, large flowers red and rose-white, 12 to 18 inches high.

Candytuft Sempervirens. Blooms early in spring.

Cerastium Tomentosum. "Snow in Summer." Of sprawling habit, white leaves and white flowers.

Cowslip. Spring flowering, hardy, bears fragrant flowers.

Delphinium Blue Butterfly. Beautiful blue variety of compact growth, blooms the first year if sown early. Height, 18 inches.

Geum Mrs. Bradshaw. A large double strain, bears brilliant crimson-scarlet flowers. Height, 2 feet.

Heuchera. Alum Root. Flowers are a beautiful red. Bloom all summer. Height, 2 feet.

Myosotis Pulustris. The popular blue Forget-me-not.

Sedum Acre (Stone Crop.) Beautiful yellow flowers.

Saxifraga Mixed Colors. Known as "Rockfool," mossy leaves invaluable for rockeries, stone walls, etc., etc.

F EMMA MARIE Cactus A robust grower, producing deep, full blooms on long stems. Outer petals clear pink with a creamy white center.

G KHOLOROS Cactus A charming variety. The flowers are large, with petals gracefully quilled and curled. Color, lemon yellow. Long wiry stems hold the flowers well above the foliage.

I SUNSET GLOW Cactus One of the first Dahlias to come into bloom, it continues to produce perfect flowers until killed by frost. The color is yellow at the base of the petals; the outer part overlaid flame scarlet, tipped yellow.

J SOPHY MOREY Cactus White, heavily overlaid with lavender. A good keeper when cut.

K LEO NEISSON Decorative The color is an extremely soft, rich strawberry red. The great abundance of large flowers makes this one of the most showy and desirable Dahlias.

L QUOTA Decorative A Dahlia admired by all who see it, a pure glistening white flower on long stems. Keeps a long time when cut.

M THE EMPEROR Decorative A wonderfully rich shade of velvety maroon. Large flowers on long stems.

N MRS. I. DE VER WARNER Decorative Very large, beautiful flowers of fine form and substance. The color is rich, rosy mauve. It is a very free bloomer, with long stems. Valuable for cut flowers.

O JERSEY'S BEAUTY Decorative The most popular cut flower Dahlia in cultivation because of its exquisite color and fine form. The color is a vivid, glowing pink. Large flowers of great depth, always full to the center.

P JERSEY'S BEACON Decorative Popular as an exhibition and garden variety. The color is chinese scarlet with a paler reverse giving it a two-toned effect.

This well-chosen Collection is very Popular and has already had a large sale this Season. It is pictured in colors in our Spring Catalogue "Everything for the Garden," page 136.

HENDERSON'S TESTED VEGETABLE SEEDS

SPECIALY FOR SUMMER AND FALL SOWING SELECTED

We issue this our Summer Catalogue chiefly because we want to impress upon all our friends **THE IMPORTANCE OF SOWING VEGETABLE SEEDS IN JUNE, JULY AND AUGUST.** It has been noted by a keen observer who travels much in New York, New Jersey, Pennsylvania, Massachusetts and Connecticut that some of the best vegetable gardens are planted after the first of June.

Many varieties of vegetables yield larger crops from summer sown seed, than from spring sown seed, because the weather prevailing at the time the young plants attain any size is exactly suited to their requirements, and they are able to grow and complete their development without check. Keep on sowing rows of Beets until August, as they are always welcome on the table, and store well for winter.

Plant Bush Beans now and at other times up to August 15th and you will reap additional harvests of sweet, tender pods. Sow Sweet Corn every two weeks until July 15th. The early part of June is the time to sow Cabbage seeds for plants to set out for winter crop.

Now is the best time in all the year to sow seeds of root crops, such as Carrot, Beet, and Turnip. Carrot and Turnip in July. The young plants attain their true leaves when the weather is favorable to them, and grow right on without a check, consequently they are tender and palatable.

All the vegetable seeds listed are delivered transportation paid in the U. S. and Possessions.

Make Your Garden Work Full Time—Grow Vegetables for Winter Use

With proper management, fresh vegetables may be had from the garden almost from the beginning till the end of the year. For your health's sake, grow and eat plenty of vegetables. They supply the human body with the tonics and minerals needed to keep it in good health. Vegetable foods are also rich in proteins, carbohydrates, fats and vitamins, all of which are required for a well balanced diet.

We wish to make it generally understood that the possibilities of the garden have by no means been exhausted after the first crop is produced. Sowings may be made all during the summer, till well into fall. The dates below are for the latitude of New York.

Beans, Lima, June 5th.	Cauliflower, June 15th.	Kohl-Rabi, July 15th.	Radish, Winter, Aug. 15th.

The Most Beautiful Lawns in America are Made with the HENDERSON LAWN GRASS SEED

The "Henderson" lawn grass seed mixture has been thoroughly tested by country-wide use for more than half a century. It is the fruit of years of experience and close study of American conditions and is undoubtedly the best for the American climate. By its use a deep green, velvety sward, free from clumps, can be produced in from 4 to 6 weeks' time. The "Henderson" LAWN GRASS SEED is a carefully arranged combination of fine-leaved, dwarf Grasses which are at their best during different months of the year, thus keeping a lawn constantly covered with enduring green.

Poisonous liquids and insecticides are not mailable, consequently they must be shipped by express or freight.

The Henderson "Featherweight" Lawn Mower

The Lightest and Easiest Running Mower in the World. Leaves the Lawn Like Velvet

The wheels are 10 inches in diameter; this permits the mower to roll over rough or uneven surfaces without lessening its cutting efficiency. Another feature that is exclusive in the Henderson "Featherweight" is that the knife is close to the outer point of the wheels. This permits close cutting around trees or other obstructions. The 6¼-inch diameter of the reel enables it to cut tall grass as well as to clip the closest turf. It has 4 crucible steel, oil-tempered blades. The lower blade is made of the highest grade cutlery steel, hardened, tempered and ground, so that the mower always remains sharp.

Price, 14-inch cut, weight 35 lbs., \$13.50
Price, 16-inch cut, weight 36 lbs., 14.50
Price, 18-inch cut, weight 37 lbs., 15.50
Grass Catchers for any of the above Mowers, \$2.50 each.

Delivered transportation paid. See Special Notice above.

The Henderson "Featherweight" Mower

Double Rotary—Next Best Thing to Rain

The latest model Double Rotary Sprinkler embodies improvements which make it, more than ever, the ideal sprinkler whether for lawns, gardens, golf courses, ball parks, nurseries, orchards or public parks.

Double Rotary

It is constructed of the best materials, machined for long wear; wheel of cast aluminum will not rust. The steel and bronze gears run in a bath of oil. The nozzle is adjustable for fine or coarse spray, and permits covering small or large area without reducing volume. Skid base permits moving while in operation. Cannot tip over on any pressure. All wearing parts enclosed. Very successful for overhead systems; covers diameter of fifteen to eighty feet, according to pressure.

Price, \$12.50. Transportation paid.

Henderson's "Best Para" Rubber Hose

This is the highest grade of garden hose, being made entirely from New Para Rubber and will outlast cheap hose three times over. We guarantee it to stand a 300-lb. water pressure, and it will be as resilient in three or four years' time as when new, while cheap hose of that age will be hard and rotten. Every length of Henderson "Best Para" Hose is fitted with the new water-tight couplings, without extra charge. (See illustration.)

Hose is furnished only in 25-foot and 50-foot length.

Prices, ¾-in. bore Para, per 25-foot length, \$4.50; per 50-foot length, \$8.50. Delivered transportation paid. See Special Notice above.

The Henderson Model "A" Lawn Mower

Self-Adjusting Ball Bearings. Self-Sharpening Cutting Knife

Equipped with self-adjusting ball bearings to the wiper shaft, and spiral blades which shear the edge of the stationary knife at an acute angle, thus cutting the grass by drawing it across the edge of the stationary cutting knife instead of pushing it across, as done in other Mowers.

Specifications of Model "A"

Eleven-inch Traction Wheels; 6-inch wiper cylinder with five drawcut spiral blades; self-adjusting ball bearings to wiper shaft; flexi-rigid, twin-edge cutting knife; spade grip handle; handsomely decorated in colors, gold and silver. (See illustration.)

Price, 14-inch cut, \$15.00; 16-inch cut, \$17.00; 18-inch cut, \$18.00; 20-inch cut, \$19.00.

Grass Catchers—14-inch, \$2.00; 16-inch, \$2.00; 18-inch, \$2.50; 20-inch, \$2.50.

Delivered transportation paid. See Special Notice above.

The Henderson "Allover" Sprinkler

Three patented sprinkler nozzles are attached to two sections of high quality rubber hose each fifteen feet long. This permits great flexibility allowing the outfit to be laid straight, in a circle or at any angle desired.

When laid straight—with average pressure—it will sprinkle thoroughly an area about fifty feet long and twenty feet wide. The nozzles break the water into a very fine mist which will penetrate into but not wash the soil. It is therefore safe to use even on a newly planted lawn.

If it is necessary to irrigate a very small section of the garden only, two of the nozzles may be removed and only the end one used. This is the most practical and efficient sprinkler system that has ever been offered. Price complete, \$5.50.

Extra 15-foot section of hose with couplings, \$1.50.

Extra Connecting Nozzles, 80c each.

Extra End Nozzles, \$1.00 each. Transportation paid.

Fan Shower Sprinkler

Throws a wide, fan-shaped, gentle shower. Valuable for hotbeds, greenhouses and gardens. Width, 4¼ inches.

Price, 55c. Transportation paid.

The Henderson "Allover" Sprinkler

All Iron Hose Reel

The All Iron Hose Reels are indestructible, light in weight, frictionless and are easily manipulated. These reels cannot tip over when unreeling, and there is no weight of hose to carry on the handle.

Prices:
No. 10. 21-in., holds 100 feet ¾-in. hose..... \$4.00
No. 20. 24-in., holds 150 feet ¾-in. hose..... 5.00
No. 30. 30-in., holds 500 feet ¾-in. hose..... 8.50
